Key concepts

The Flatline City: Second Wave Core Set follow the same principles as the original Flatline City release. You should review these comprehensive instructions at

<https://saucerstudios.com.au/flatline-city-core-set-instructions/>

This set introduces four new building shapes to the series:

- Hex Buildings
- Cross Shaped Buildings
- Round Buildings
- L Shape Buildings

They following sections can each be combined as interchangeable parts:

- Building Sections
- Rooftops
- Accessory Rings
- Removable Floors
- Doorways & Shutters
- Building Width Extenders
- Stairs
- Accessory Ring Converters

Building Width Extenders

These are used to change the width of standard shaped buildings, from the original Flatline City set and allow two back-to-back buildings, also from the original set to be placed above.

Note – No standard shaped buildings are included in this core set.

Accessory Ring Converters

These allow you to convert the OpenLock Sockets from horizontal to vertical or vice-versa. There are also extensions for each orientation too.
